

## LENSE REMOVAL AND REPLACEMENT INSTRUCTIONS

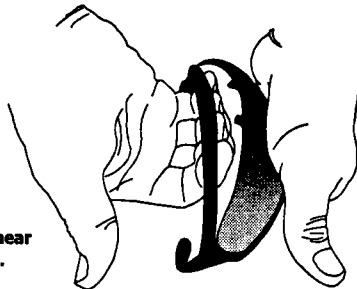

### Lens Release for CQC

- 1.) Detach side shields by first separating the Lower tab on the side shield from the frame.
- 2.) Hold frame as pictured in Graphic #1
- 3.) Place fingers of your other hand under the "inside lip" of frame by the top center of the frame.
- 4.) Separate the top of the frame from the top of the lens. See Graphic #2
- 5.) Push an outside corner of the lens away from the frame
- 6.) Separate lens from Frame.

### Lens Installation for CQC

- 1.) Firmly seat lens to the nose bridge
- 2.) Seat the lens to the frame at the upper outside corners of the frame.
- 3.) Lift the Brow Frame over the lens tabs and squeeze to seat. You will hear a "click" as the frame snaps closed.
