NERVE R-8051 INSTRUCTION CARD

LENS REMOVAL (GRAPHIC 1)

Position hands as depicted in Graphic 1 and separate the top of the goggle from the top of the lens. (Reference Graphic 2 at C1 & C2)

Separate both outside corners of the lens from the frame. (Reference Graphic 2 at B)

Separate the nose of the frame from the nose of the goggle. (Reference Graphic 2 at A1 & A2)

LENS INSERTION (GRAPHIC 2)

You **MUST MAKE CERTAIN** that each lens hook seats **COMPLETELY** into the goggle frame.

Seat the "nose" area of the lens into the "nose" area of the frame at A1 and then A2

Seat both outside "crescents" of the lens completely into the frame at B

Seat the top of the goggle in stages. Seat the most outside, right side hook at C1 and then the opposite outside left side hook at C1

Seat the "brow" or top center of the lens into the "brow" or top center of the frame last at C2.
