2023 PRODUCT CATALOG

U.S. Veteran Myles Freeman Sr. founded Wiley X with a focused determination to create the world's best protective gear for those who protect our country.

For over 35 years, we've remained a family-owned company that continues to provide premium protective products to military and first responders while expanding across consumer categories such as outdoor sporting, fishing, and hunting.

Our dedication to protection is how we ensure our products inspire confidence in everyone who wears them—regardless of their pursuit and despite whatever they encounter. Our unwillingness to compromise has always defined us. Our commitment to protection will always differentiate us.

We're excited to announce that in fall of 2022, we relocated our headquarters and manufacturing to Frisco, Texas. Located north of Dallas, Frisco offers our company and employees exciting opportunities to expand as well as increased shipping and distribution efficiencies for the wide range of accounts we support. We are proud to call Frisco, Texas home and look forward to many more years servicing our valued customers from our new centrally located headquarters.

CAPTIVATE™

Wiley X redefines color with our patented CAPTIVATE technology, which filters out ambiguous light, increasing clarity and definition with vibrant contrast and vivid detail. Offered in multiple lens colors to provide situation-specific benefits in variable light conditions, CAPTIVATE lenses block harmful UVA/UVB light and also UV/HEV blue rays. Like all Wiley X adult glasses, CAPTIVATE lenses meet ANSI Z87.1+ safety standards for unparalleled protection.

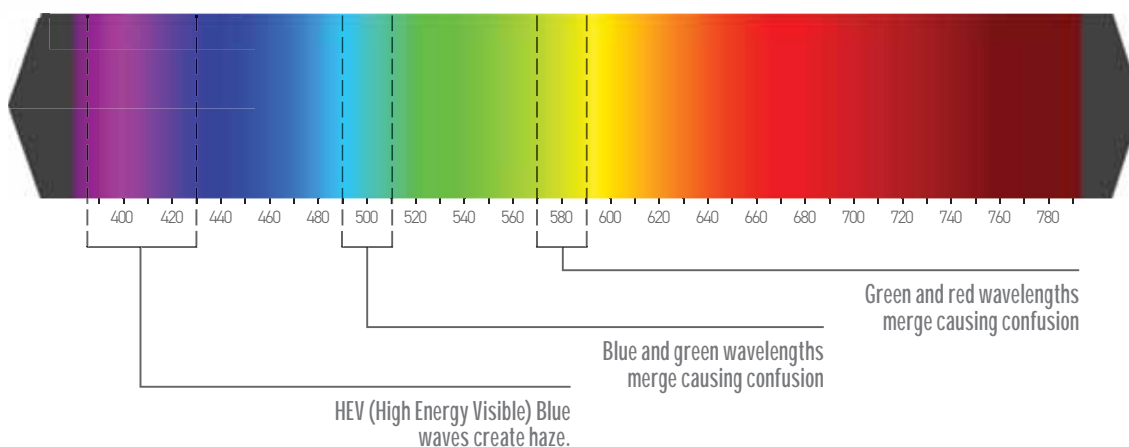

VISUALIZING THE LIGHT SPECTRUM

Even though the human eye cannot see the entire light spectrum, certain areas are difficult for the eyes to see clearly, while other areas are very dangerous to your eyes' health. CAPTIVATE lenses filter out harmful rays as well as light that confuses the eye, increasing clarity and definition with vibrant contrast and vivid detail.

The visible light spectrum runs in a range of wavelengths from ultraviolet to infrared and is measured in nanometers. A typical human eye will respond to wavelengths from about 380 to 740 nanometers. CAPTIVATE lenses filter out eye-confusing light to make the color spectrum clearer. The result is increased contrast and greater clarity.

LIGHT SPECTRUM SEEN WITH THE NAKED EYE

LIGHT SPECTRUM FILTERED THROUGH CAPTIVATE POLARIZATION LENSES

CAPTIVATE™

COLOR REDEFINED

CAPTIVATE™ lenses filter light to reveal vivid detail,
vibrant contrast, and optimal clarity.

CAPTIVATE redefines color.

BENEFITS OF CAPTIVATE™ LENSES

ENHANCED COLOR

CAPTIVATE filters out confusing light where blues and greens merge and greens and reds merge. The lightwaves CAPTIVATE lenses don't filter are easier for your eyes to see, resulting in vivid blues, greens and reds for a true color experience.

GREATER CLARITY

Blue light with shorter wavelengths and higher frequencies scatter light and create haze. By filtering out this "bad" blue light, CAPTIVATE lenses remove the haze and allows distant objects to be seen more clearly.

INCREASED CONTRAST

By filtering lightwaves and bad light, CAPTIVATE lenses increase contrast so you can discern more detail in your environment. Lenses are offered in a variety of tints so you can fine-tune your experience based on the specific needs of your environment.

BETTER DEPTH PERCEPTION

By eliminating the blue light haze while separating and enhancing colors in the visual spectrum, CAPTIVATE lenses enhance depth perception.

INCREASED ALERTNESS / ELEVATED MOOD

CAPTIVATE lenses allow the beneficial side of blue light to be seen. This helps maintain the body's Circadian biological clock and the sleep/wake cycle. This beneficial blue light also boosts alertness, helps memory and elevates mood.

BLOCKS UV / BLUE HEV RAYS

CAPTIVATE blocks the UV (Ultra-violet) and HEV (High Energy Visible) blue rays that are harmful to our eyes, reducing the risk of damage to retinal cells and age-related macular degeneration while also reducing haze.

WITHOUT CAPTIVATE™ LENSES

WITH CAPTIVATE™ LENSES

RESILIENCY OF CAPTIVATE™ LENSES

OLEOPHOBIC AND HYDROPHOBIC PROPERTIES

Wiley X utilizes a proprietary oleophobic and hydrophobic coatings on all CAPTIVATE lenses to create a smoother lens surface, which helps to keep dust, dirt, oil, snow and water from sticking to the lens. This in turn helps prevent smudging and water spots, making the lenses much easier to clean than an uncoated, standard lens.

SCRATCH/ABRASION RESISTANCE

CAPTIVATE lenses achieve a Bayer 7 rating* for scratch resistance. A rating of 4 or higher equates to a premium coating.

*Plano Lenses

CLARITY

Wiley X was founded on a commitment to provide uncompromising protection. We apply this same spirit and dedication to building every Wiley X lens for optimal clarity. Wiley X lenses are made from Selenite™ polycarbonate and are ANSI compliant, ensuring crisper, more precise optics, enhanced color contrast, minimized distortion, and visual accuracy. From Digital Edge Thinning prescriptions custom-made in our lab to our patented CAPTIVATE™ polarized color enhancing lenses, we continue to innovate and develop technologies that provide unmatched precision for every lens we build.

ANSI OPTICAL CLARITY

All Wiley X lenses meet the strict ANSI optical clarity requirements. We tirelessly test all of our lenses for refractive, resolving astigmatism and prismatic powers. Unlike ordinary lenses that can bend light and distort the true size of objects, our lenses are de-centered and tapered to ensure true spatial relationship of objects and distortion-free clarity.

STYLE: WX OMEGA

LENS ANATOMY

CAPTIVATE™ POLARIZED

GREY BASE LENSES

CAPTIVATE Polarized Blue Mirror
Cuts glare from severe sunlight and excels in uncovered environments that are typically associated with salt-water fishing. Light transmission: 11%

CAPTIVATE Polarized Red Mirror
Elevates greens while providing maximum shade. Keeps colors true. Great for deep water fishing to cut top-water glare and severe sunlight. Excels in environments associated with saltwater fishing. Light transmission: 15%

CAPTIVATE Polarized Grey
Darkens the light while brightening the world! Provides maximum shade while enhancing contrast of greens, blues, and yellows. Great for general daytime use. Light transmission: 15%

GREEN BASE LENSES

CAPTIVATE Polarized Rose Gold Mirror
High-performance on slightly cloudy/overcast days. Further enhances contrast while providing a true color experience. Great for outdoor activities on bright days. Light transmission: 13%

CAPTIVATE Polarized Platinum Flash
Glare reduction across all environments. Further enhances contrast while providing a true color experience. Great for outdoor activities on bright days. Light transmission: 13%

COPPER BASE LENSES

CAPTIVATE Polarized Bronze Mirror
Cuts down glare making it perfect for sight fishing in shallow water, red clay, or brackish water. Also a good option for outdoor activities such as baseball, golf and cycling. Light transmission: 15%

CAPTIVATE Polarized Green Mirror
High-contrast tint enhances clarity in blue colors and differentiating greens/browns. Provides enhanced sight while fishing on flats, rivers, and streams. Light transmission: 12%

CAPTIVATE Polarized Copper
High-contrast tint that equalizes the environment. Red, green and yellow color enhancer. Cuts down glare making it perfect for sight fishing. Light transmission: 17%

POLARIZED / STANDARD

GREY BASE LENSES

Silver Flash / Polarized Silver Flash One of the darker lenses Wiley X offers. Multi-coat, Z-Oxide mirror over smoke lenses. Reduces glare. Excellent on bright days. Light transmission: 13%

Smoke Grey / Polarized Smoke Grey Provides glare reduction without distorting colors. Excellent in bright conditions and a perfect all-around choice for sports on water and land. Light transmission: 15%

LA™ Light Adjusting Smoke Grey Photochromic lenses darken and lighten depending on brightness for maximum optical clarity. Light transmission: 81% to 17% in sunlight

Red Mirror Ideal for extreme sun and bright conditions. Greatly minimizes glare off any surface. Light transmission: 15%

Blue Mirror Low light transmission for minimized glare in extreme bright conditions. Light transmission: 13%

BROWN BASE LENSES

Red Mirror Ideal for extreme sun and bright conditions. Greatly minimizes glare off any surface. Light transmission: 15%

Brown Ideal Excellent in bright conditions and a great choice for all-around usage. Light transmission: 16%

OTHER BASE LENS OPTIONS

Copper Superior visual definition. Makes orange-colored targets stand out. Light transmission: 14%

Yellow Best light enhancing lens tint. Increased contrast in low to extremely low-light/hazy/dull conditions. Light transmission: 82%

Light Rust Filters out most blue light waves, the chief component of glare and haze. Enhances contrast in medium to low-light conditions. Light transmission: 52%

Vermillion Best for medium to low-light conditions. Sharpens contrast and brightens targets. Ideal for water activities, skiing, and extreme sports. Light transmission: 45%

Purple Best for medium to low-light conditions. Sharpens contrast and brightens targets. Light transmission: 40%

Orange Best light enhancing lens tint. Increased contrast in low to extremely low-light/hazy/dull conditions. Light transmission: 55%

Clear Maximum light transmission. See precise color values. Hazy or overcast, dusk/dawn conditions. Light transmission: 89%

PROTECTION

Founded on supplying military forces and law enforcement personnel with top-of-the-line ballistic eyewear, Wiley X continues to hold safety as our priority. We have adopted this approach by building our entire eyewear line with shatterproof Selenite™ polycarbonate lenses and super-tough Triloid™ frames to provide the highest levels of protection available. From our ANSI Z87.1+ rated sunglasses to our ASTM F803 rated Youth Force® series, Wiley X is continually innovating to deliver unparalleled protection, clarity, and style in every pair of glasses we build.

TECHNOLOGY

ANSI HIGH-MASS IMPACT TEST

Wiley X ANSI Z87.1+ frames and lenses must withstand the impact of a 1.1 lb projectile dropped from a height of 50" to ensure your eyes are protected from unexpected blunt force impacts.

ANSI HIGH-VELOCITY IMPACT TEST

Wiley X ANSI Z87.1+ frames and lenses must withstand the impact of a .25" diameter steel ball. For spectacles, the projectile must be traveling 150-160 fps and for goggles, the projectile must be traveling at 250-260 fps.

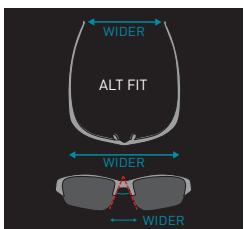

V0 BALLISTICS

Several Wiley X eyewear models are tested to V0 ballistics which consists of a spectacle frame and lens being impacted with a .15 caliber projectile traveling 640-660 fps, or a goggle frame and lens with a .22 caliber projectile traveling 550-560 fps. Wiley X eyewear models that are part of the Authorized Protective Eyewear List (APEL) are tested to the Alpha version of the V0 ballistics standard which consists of a spectacle frame and lens being impacted with a .15 caliber projectile traveling 700-725 fps, or a goggle frame and lens with a .22 caliber projectile traveling 580-590 fps. Both tests are meant to simulate shrapnel potentially encountered on the battlefield.

YOUTH FORCE® ASTM F803 STANDARD

All Youth Force™ Sports Protective Eyewear models are tested to ensure that they meet the ASTM F803 standards. To pass the High-Velocity Impact Resistance Test, the eyewear must withstand projectiles sized from 40 mm to 65.1 mm fired at a 90mph. Youth Force™ styles are suitable for Soccer, Basketball, Racquetball, Squash, Badminton, Paddle Ball, Tennis and Handball.

ALTERNATIVE FIT

Wiley X Alternative Fit styles are designed for people who have high cheekbones and a shallow nose bridge. By widening the nose bridge, the eyewear sits higher on the face to prevent contact with the cheeks.

ANSI EXPLAINED

ANSI Z87.1+ is the American National Standard for Occupational and Educational Personal Eye and Face Protection Devices. It contains performance specifications, and markings of eye and facial safety products—setting the standards they must meet for protection and optics.

ANSI COMPLIANT FRAME AND LENS MARKINGS

- Z87** Designation of the standard.
- 2** The frames can be fitted with a prescription lens, which is the case with most Wiley X styles.
- +** The eyewear frame and lenses have been tested to the high-velocity and high-mass impact requirements of ANSI Z87.1+ safety standards.
- S** The lens is a filter or a shaded lens (not clear).
- V** The lens is variable-tint photochromic (light adjusting).

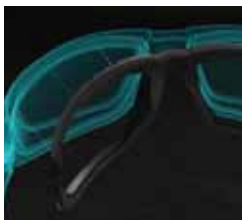

CLICK A.I.R. GASKETS

CLICK A.I.R. Gaskets are designed to shield your eyes from harmful debris, while allowing you the freedom to customize airflow through the gasket to prevent fogging. Push down on the top of the gasket above the nose bridge to open and increase airflow. Click again and lock it down. Available with the WX Ozone.

DYNAMIC VENTILATION

Our Dynamic Ventilation system works with the Removable Facial Cavity™ seals, allowing you to control airflow and reduce fogging. Side vents open to allow air to flow in and behind the lenses to clear condensation. Close the side vents to stop airflow. This technology is currently available with the WX Breach.

REMOVABLE FACIAL CAVITY™ SEALS

Fine dust and pollen, as well as wind, can cause long-term eye irritation, such as Dry Eye Syndrome. Peripheral light can also diminish optical clarity. Wiley X's removable soft foam Facial Cavity™ Seals block out even the finest irritants and peripheral light, protecting the eyes and allowing polarized lenses to perform at peak levels. Included with all Climate Control models.

6-BASE ANSI Z87.1+ SIDE SHIELDS

All Active 6 models come with removable swivel side shields that easily snap into place, along with permanent locking side shields. Active 6 models meet ANSI Z87.1+ safety standards with side shields installed.

Rotate side shield down away from lenses.

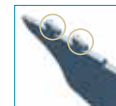

Pop side shield out of frame.

WORKSIGHT® ANSI Z87.1+ SIDE SHIELDS

All WorkSight® models come with removable and permanent side shields that easily slide into place. WorkSight® models meet ANSI Z87.1+ safety standards with side shields installed.

Side shield tabs fit into slots on the frame.

Slide the side shield forward to permanently lock in place.

WILEY X AUTHENTIC PRESCRIPTIONS

As a company that specializes in high-wrap sport and safety eyewear, it's imperative that we provide the same clarity and protection to prescription-lens wearers as we do to those without prescription requirements. We've spent decades innovating and refining our technology to ensure that every pair of prescription glasses we build inspires confidence in everyone who wears them.

THE WILEY X DIFFERENCE

Through the Wiley X Authentic Prescription Program, we're able to provide our customers with:

- The highest Rx ranges in the industry for safety and sport-wrapped frames (-10/+6 in our Active 6 series and up to -7/+5 in most wrapped styles).
- Precise prescriptions for high-wrap frames.
- CAPTIVATE™ color enhancing lens technology.
- A full service lab with an in-house coating facility.
- A dedicated Rx support team.

This is a side-by-side comparison of the same Wiley X frame with an authentic Wiley X prescription versus one without. You'll notice the other lab's frame has splayed-out temples and a thicker lens protruding out of both sides. Ours has a thinner lens and no frame distortion, providing a more comfortable and aesthetically pleasing pair of eyewear.

DIGIFORCE™ DIGITAL LENSES

Digiforce™ is Wiley X's proprietary technology which takes into account frame fitting position, prescription, vertex distance, pantoscopic tilt and eye movement patterns to create the most accurate prescription possible in our high wrap frames.

BENEFITS OF DIGIFORCE™ LENSES:

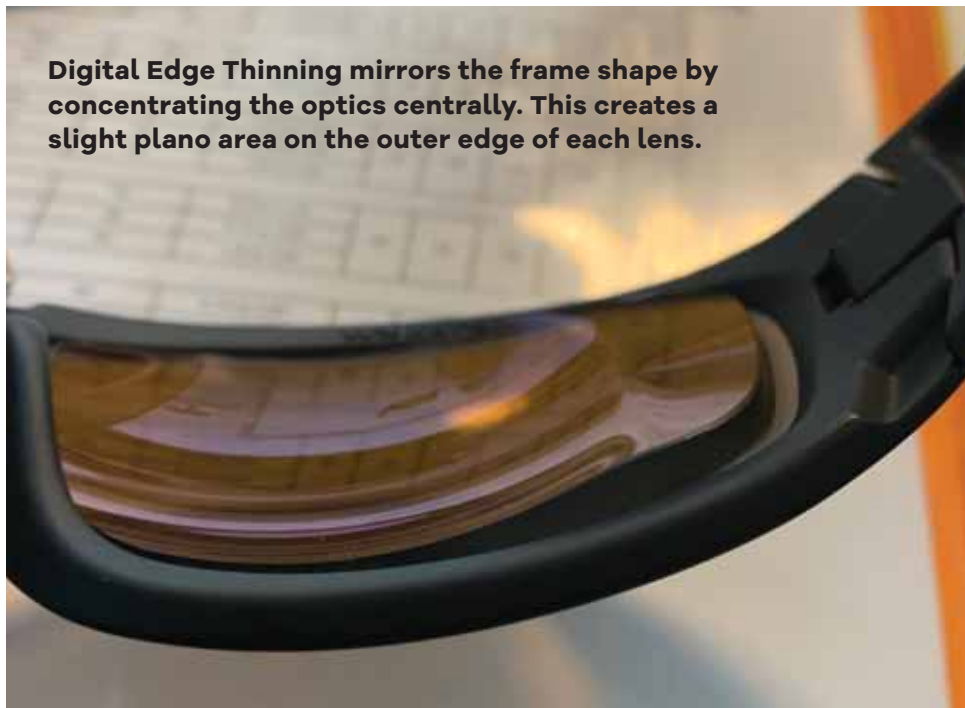

- 10 times more accurate than conventional surfacing.
- Provides the patient with an exact prescription, rather than rounding to the nearest setting in conventional lenses.
- Maximizes field of view with edge-to-edge clarity.
- Wrap compensation allows us to customize a patient's prescription specific to their lifestyle and vision needs.
- Easier patient adaptation to high-wrap frames.

DIGIFORCE™ DIGITAL EDGE THINNING

Our proprietary Digiforce™ Digital Edge Thinning technology is offered exclusively through Wiley X and allows for a higher prescription with the thinnest possible lens necessary to still meet ANSI Z87.1+ safety standards.

Digital Edge Thinning allows us to accommodate an Rx up to -10/+6 in our Active 6 series and up to -7/+5 in most wrapped styles.

Digital Edge Thinning mirrors the frame shape by concentrating the optics centrally. This creates a slight plano area on the outer edge of each lens.

WX LENS TREATMENTS

MIRROR

Durable and scratch-resistant, Wiley X mirrors feature a double sided dipped hardcoat, with premium anti-reflective (AR) coating included.

ANTI-REFLECTIVE

Wiley X premium AR coating provides an oleophobic, hydrophobic and anti-static layer, providing crisper vision and backside UV protection.

WX BLUE ANTI-REFLECTIVE

A premium "Blue Blocking" AR specially designed to filter out HEV blue light. WX Blue is ideal for gaming or extended computer use. WX Blue automatically includes our Anti-Scratch coating.

SCRATCH RESISTANT HARD COATING

Super tough hardcoat, highly durable and protective.

WX PERFORMANCE OPTIONS

POLARIZED LENSES

Acting as a visual filter, polarized lenses block blinding glare and improve visual contrast.

PHOTOCHROMIC LENSES

Lenses adjust from light to dark color in accordance with UV exposure and temperature. Vantage™ and Drivewear™ polarize as they transition.

TINTED LENSES

Performance tints for any activity. Carefully calculated light transmissions and densities are available in a wide array of colors to suit the wearer's personal or lifestyle needs.

CLIMATE CONTROL SERIES

With exceptional protection against allergens, dangerous airborne particles, sweat, debris and weather, there are no limits to what you can do. Our Climate Control Series blocks out the elements so you can face them with confidence.

TACTICAL / GLOVES

Wiley X Tactical Series Gloves are designed for superior protection and performance. We offer equipment options to meet your critical response objectives, from military combat, tactical response, field operations, or emergency first responding. Our gloves are designed to maintain high dexterity for quick, precise responses, with extra support in high wear areas for added durability and longevity. Select styles feature touch screen capability, hard knuckle, cut, abrasion, and FR flame resistance.

APX TACTICAL

Whether you're working in harsh conditions, or inclement weather, your hands will be protected with the durable construction of the Wiley X APX. Constructed with moisture-wicking, heavy-duty lycra gussets and synthetic leather knuckle and palm protection, these hard-working gloves also allow maximum breathability and dexterity.

CAG-1 TACTICAL

Law enforcement and tactical units trust their hands with the WX CAG-1 and its ability to protect in the field, thanks to patent pending injection molded knuckle protectors for impact and abrasion resistance. The molded knuckles give you secure protection when operating in buildings or in your tactical vehicle around sharp edges. Impact-absorbing knuckle protection is welded to the glove and delivers flexible protection against impact injuries and skin abrasions.

PRODUCT WARRANTY

NON-PRESCRIPTION WILEY X, INC. EYEWEAR has a limited lifetime warranty covering any and all manufacturing defects in material and workmanship.

YOUTH FORCE® AND WORKSIGHT® EYEWEAR is warranted against defects in materials or workmanship for a maximum period of 2 years.

NON-PRESCRIPTION JOHN DEERE® AND DVX™ EYEWEAR is warranted against defects in materials or workmanship for a maximum period of 1 year. (John Deere® warranty applies to USA and Canada only).

PHOTOCHROMIC LIGHT ADJUSTING™ LENSES are warranted against defects in materials or workmanship for a maximum period of 18 months (proof of purchase for Photochromic Light Adjusting™ lenses is required).

GLOVES are warranted to be free of manufacturing defects in material or workmanship for a maximum period of 2 years.

SCOPE OF COVERAGE: Wiley X will repair or replace covered items at the sole discretion of Wiley X, as needed and as available (identical or equivalent style) at no charge. Out of warranty items may be repaired (if repairable), replaced, returned, or destroyed, at the option and sole expense of the purchaser.

EXCLUSIONS: This product warranty and prescription warranty below does NOT extend to and excludes:

- a) any and all Wiley X products purchased through any non-authorized 3rd party websites, dealers or labs
- b) damage resulting from normal wear and tear, including but not limited to scratched lenses and broken frames, hinges, and nose pieces
- c) damage resulting from abuse or misuse
- d) damage resulting from tampering or customer modification
- e) damage resulting from exposure to harmful substances, elements or conditions
- f) other damage to covered items not resulting from a manufacturing defect in materials or workmanship as Wiley X shall decide in its sole discretion
- g) lost or stolen items

PRESCRIPTION WARRANTY

The following prescription (Rx) warranty extends to Wiley X, Inc., Harley-Davidson®, DVX™, and John Deere® eyewear.

RX WARRANTY: Prescription orders processed through Wiley X, Inc. will have a two (2) year warranty from the date of purchase on frames and lenses deemed by Wiley X, Inc. to have manufacturing defects. Prescriptions filled by non-authorized labs will void all Wiley X, Inc. frame and lens warranties. Prescription frame and lens warranties must be handled through the local retailer / dispensing optician from which they were originally purchased.

CAPTIVATE™ RX WARRANTY: Wiley X, Inc. will provide a one (1) time scratch redo on CAPTIVATE lenses that covers against basic surface scratches due to normal wear, along with crazing and peeling for two (2) years from the date of purchase. Scratches caused by improper care or abuse are not covered by this warranty. The customer will receive eyewear in the identical form (same frame, lenses, prescription, etc.)

SCRATCH/COATING RX WARRANTY: Wiley X, Inc. will provide a one (1) time scratch redo for lenses that covers against basic surface scratches due to normal wear for one (1) year from the date of purchase. Scratches caused by improper care or abuse are not covered by this warranty. If a coating was purchased (anti-reflective, anti-scratch, anti-fog, or a mirror) the warranty is extended to a one (1) time redo within two (2) years from the date of purchase. The customer will receive eyewear in the identical form (same frame, lenses, prescription, etc.)

DOCTOR REMAKE: A one (1) time doctor remake on Wiley X, Inc. made prescription lenses is permitted within a forty-five (45) day period from the original order date. The dealer will be charged in full for the remake then will subsequently receive a credit when the original prescription glasses are returned to the Wiley X, Inc. Prescription Department. Original orders must be returned within thirty (30) days of the remake order. All doctor remakes will be billed a \$10.00 shipping fee.

PRESCRIPTION WARRANTY continued

RX CHANGES/CANCELED ORDERS: If the lenses are not in process, prescription changes and order cancellations will be accepted at no charge. Any requests made after a customer order has been put in process will be charged at 50% of the dealer cost.

NON-ADAPTS: Dealer will have forty-five (45) days to return a prescription order that is deemed “non-adapt” by their customer. In this instance, the dealer will receive a full refund on the frame and 50% credit on the RX lenses and coatings. No credit or refund will be issued for non-adapts submitted after forty-five (45) days.

LAB ERRORS: In the event of lab error, prescription lenses will be replaced at no cost within a forty-five (45) day period of the original order date. Redo will be credited upon receipt of original frame and lenses.

PATIENT OWNED FRAME (POF): Wiley X, Inc. accepts POF orders, however, frames must pass Wiley X, Inc. quality inspection. Prior to sending the POF, please verify that the prescription and the measurements are within the tolerance of the Wiley X, Inc. RX Frame Parameters. Please remove any existing prescription or non-prescription lenses from the frame prior to shipping. Wiley X, Inc. will not provide any warranty or be held responsible for any lost or damaged lenses on previous prescriptions sent in with a frame.

DISCONTINUED PRODUCTS: Wiley X, Inc. will not RX frames that have been discontinued for longer than six (6) months.

SHIPPING: Please package your POF and/or return product securely and use a traceable carrier. Wiley X, Inc. is not responsible for packages lost or damaged during transit caused by carrier or any outside factor.

PLEASE NOTE: Due to the nature of a high wrapped frame and in order to achieve superior optical quality, prescription lenses will be compensated accordingly with the consideration of wrap angle, tilt, and vertex distance to be customized to fit your customer’s vision needs. This may result in prescription power differential from the one your eye care professional has prescribed. Please do not hesitate to call the Wiley X, Inc. Prescription Department with questions at 888.210.8926

All prescription sales are final

RETURNS AND EXCHANGES

Returns and exchanges will not be accepted without receiving prior authorization to include an assigned return authorization number. For every one item returned, at least one item must be purchased. Returns must be in resalable condition, as determined by Wiley X for product not discontinued longer than six months. All returns must be shipped prepaid from point of origin, unless prior arrangements have been made. No COD returns accepted. New orders resulting from exchanges will be shipped upon receipt of returned merchandise unless other arrangements have been made with Wiley X. Customers are responsible for all shipping charges, both inbound and outbound. Returns should be sent to the attention of the RETURN DEPARTMENT.

TERMS AND CONDITIONS

Extreme care is taken when packaging all products we ship. If a discrepancy occurs, a claim should be made immediately.

Standard Terms: NET30 (upon credit approval); Credit Card (Visa, Master Card, Discover, American Express).
